

## Beanbag Shapes

### Posting Beanbags

#### Play suggestion:

Transform a cardboard box or container into a colourful beanbag posting game! Paint around each hole and challenge tamariki to match the beanbags by colour as they drop them in. Add in holes of different sizes and shapes for an extra twist, helping them to learn to problem solve while having fun.

**This activity supports Te Whāriki Exploration Goal Three.**

#### What tamariki will learn:

- Shapes, sizes and patterns.
- How to play alongside their peers, sharing and taking turns.
- Hand-eye coordination and spatial awareness to support cognitive development.
- A range of strategies for reasoning and problem solving.

**This activity helps to meet Te Whāriki Exploration Learning Outcome Three.**
